CAMP GROUNDS ARE NOW A CLIV OF TENTS:

31st and 32nd Regiments at War Strength Comprise About 5,000 Men.

General Covell and his staff arrived in Grayling last Saturday and immediately jumped into the work of planning the summer's training camshape, with many improvements over former camps. Nearly fifty kitchens and dining rooms had been built for been built, a new \$25,000 hospital and a new \$10,000 administration building were about completed. The grass or the camp, and drill grounds had been cut and the place looked more like a huge summer resort than ever before

A fine \$20,000 officers' club house s also about completed and ready for occupancy. This was built complimentary of Rasmus Hanson and every provision has been made to have it complete in every detail. The officers were highly pleased with this new accessory.

The 31st regiment from Detroit, ar rived Monday and soon had their tents pitched and everything made comfortable. The 32nd regiment from Grand Rapids, arrived at about 5:00 p. in. Tuesday.

The men seemed in splendld spirits and ready and willing to undergo the hard drilling that is before them. The 33rd regiment of Bay City and northern Michigan have been in service all summer and are doing guard luty in several place and no doubt will not appear at Grayling this season.

There were many warm friendships formed among our citizens and the soldiers last year, and it seems good to have them with us again this summer. The work that confronts our soldier boys at this time is a serious makes of cars; tires and tubes, in cor one, and far different from that of last nection with sale of Maxotires. summer when we were having tron-

bles with Mexico. Unless the war with Germany comes to an early, sudden end practically all the men now at are giving up splendid positions in order to perform their patriotic duty in the defense of our flag and in the interest of humanity. Lets give them all the cheer that we are able to give; our power to confer.

Just how long the Michigan guard will remain in Grayling seems to be unknown to the officers in camp. There stay here may be but a com parative few days and it may be until the early fall days; and to say the They found the camp in ship least they cannot remain too long to suit the people of Grayling.

#### Want New Scout Master.

L. C. Bundgaard, who has been Boy Scout master for the past two years, has resigned, and he will turn over all the books and paraphernalia to the Committee. If there is any one in town that would like to take charge of the Boy Scouts, we would be pleased to receive his application and in the meantime, they will be taken care of by Mr. P. G. Zalsman.

A. A. Elisworth M. A. Bates,

P. G. Zalsman, Mr. Zalsman has had considerable xperience as scout master and it apears that he would be the ideal man to take up the work that has been so well begun by Mr. Bundgaard. He is popular with the young boys and would make a good manager. Mr. Bundgaard's resignation came abou because of his being drafted into the federal army; the passed the physical examination and did not request

# WILL HAVE TEST WELL ON

In compliance with instructions from Mr. E. D. Rich, State Sanitary Engineer, based upon a request from Mr. T. P. Peterson, Clerk of the Board of Public Health, Grayling, I visited that place on July 10th and conferred with T. W. Hanson, Village President. Messrs. McCullough and Lewis, members of the Public Health committee and John Harrington, Il. O., in regard to the condition of certain wells in the southern part of the

In 1915 the Dupont Powder Co. con structed a chemical plant at Grayling. sewer was laid along State St., empying into the Au Sable river. The sewer was found to be inadequate and another sewer was constructed alongside of the first. It was not long before numerous wells in the vicinity of the intersection of Alger and State Streets began to have peculiar tastes and offensive odors. Samples of the water were sent to our laboratory for analysis, but nothing detrimental to the public health of the citizens was found in the same. The tastes and odors still existed, however, and it was claimed that it was impossible to vash clothing in the water because of he offensive odors. During the past winter, in the months of February March and April, these conditions vere at their worst. At the time of ny visit, in company with Messrs. Me-Cullough, Lewis and Harrington we isited the wells from which comthat several of the old wells had been abandoned and new wells, of a deep, r type, constructed. All of those new were in good shape without the slightest disagreeable tastes or odors and the owners thereof informed in that no trouble whatever was experiput down. The old wells are from 10 to 25 feet deep and the new wells are layer of hardpan before reaching their water-bearing stratum. In the vicinity of the intersection of State and Alger Sts. we found several wells and odors the principal one being

Johnson informed us that his well was 24 ft. deep and it is about 80 feet from the line of the Dugont Powder Co's We visited the office of the Dupon Powder Co. and met the manager, Mr. the sewer that would give rise to odors or taste were creosote and acetate of lime. He informed us that the first wells put down by the Dupont Powder

that owned by Peter Johnson, Mr.

Co. were shallow wells from 20 to 25 ft in depth. However it was only a short time when the water from these wells became so saturated with creosote oil the singing of Madame Shank they due to spillage, that the men could not drink the water. Deeper wells, from The Madame's singing was delightful 40 to 60 feet deep, were put down and no further trouble has been experienced.

> Mr. Morfit accompanied us to the affected area and agrees with us that Mr. Johnson's well was unquestionably contaminated by creosote oil. The well at the home of J. Billings also there were several others in the vicin-

the tastes and odors have existed for some time, but there was not the slightest trace upon the day of my of an iron nature. This well is 18 ft deep and is located across the street from the Johnson well.

It is my opinion that there is some seepage from the Dupont Powder Co's sewer. The wells complained of are all shallow wells of the surface type. being from 20 to 25 ft. deep, with no protection whatever from surface seepage. The Dupont Powder Co's sewer is approximately 8 feet deep at this location. It has been demonstrated. further south on State street, that when new wells have been put down below the hardpan that the tastes and odors were not noticeable. In the shallow type of wells the water was undoubtedly contaminated with sur-

face seepage before the Powder Co's sewer was put id. Now that this sew er runs down State Street with a small amount of seepage, carrying a substance to which there is a distinctive taste and odor, the water from these wells, quite naturally, is effected. I feel that it is really a good thing that some harmless substance has shown that these wells are getting surface eachings. After talking the matter over with

Mr. T. W. Hanson, Village President we concluded that it would be advan tageous to all concerned if the village would drive a well, in this vicinity, down below the hardpan strata, to see if it can be demonstrated that a well of proper depth will not be effected by the creosote taste and odor. I think this is a good idea and I am fully convinced that a well of this type will

# **CONTROL OF BREAD** COST STARTS SEPT.

GOVERNMENT READY TO SEIZE WHEAT CROPS IF NECESSARY TO CONSERVE SUPPLY.

#### SPECULATION WILL BE CURBED

Elevators and Mills Over 100 Barrels Daily Capacity Must Take Out Government License.

Washington-The food administration announced Sunday night, its plan for controlling wheat, flour and bread, revealing that the government is pre pared to take over the whole 1917 wheat harvest if necessary to conserve the supply, obtain just prices for America's fighting forces and their Allies and reduce costs to the public in the

United States.
Establishing of buying agencies at all the principal terminals, licensing of elevators and mills, fixing of a price to be considered fair, regulation of the middle man and of grain changes, with the climination of trading in futures, are the chief features of the plan. The licensing will begin September 1.

The minimum price of \$2 for wheat effective until next year, but the administration proposes to exercise a thorough control over this year's crop to exercise a through powers conferred under the food and export control bills.

The government will prosecute all persons who hold more wheat or flour than is required in their business. In order to eliminate speculation in wheat and flour, all elevators and mills over 100 barrels daily capacity will be re quired to take out a government limore than 30 days, without the approval of the government.

Republic. By EDWARD W. PICKARD The senate last Wednesday adopted the conference report on the food con-

trol bill, the measure was signed by Speaker Clark and President Wilson, and is now the law of the land, a law -conferring on the president tremendous powers over the food and fuel supplies of the country, and designed to protect the people from extortion. At the Michigan Central crossing Sixty-six senators voted for the bill sisted in their obstructionist factles to the end-were-France, Gronna, Hollis, Hardwick, La Follette, Penrose and Sherman and Gore both were paired against the bill.

The law contains drastic prohibition provisions. Thirty days after the of its approval it will be unlawful to use foodstuffs in the manufacture of distilled beverages or to import distilled-spirits-for-beverage purposes, and the president will be powered to commandeer for military purposes distilled liquors now held in bond and to regulate or restrict the use of foods in the manufacture of

wine and beer. The senate also-adopted the con ference report on the food survey bill, designed to stimulate production and to give the country information\_on food resources, and thus the adminis-tration's food control program was at last completed.

Coal Prices and Profits. Coal prices are causing a great stir, especially in the Middle West, and in Illinois the state council of defense advised Governor Lowden to seize the mines because the operators would not sell at what was considered a reasonable profit. The governors and defense councils of 15 Middle West States were asked to meet in Chicago

. President Wilson last week made a personal visit to the federal trade commission and the department of ustice to urge the hastening of ac tion to curb high prices, and made it evident that he intends to do every thing in his power to stop the exacting of exorbitant profits. The war industries board followed up this by announcing that American produces selling war necessities to America's allies would be permitted to make only reasonable profits, provided that the allies must reciprocate in selling to the United States and to one an other. The president, moreover, has said that the prices to the public must be made the same as to the govern-

Record-Breaking Corn Crop Cheering news came out of th partment of agriculture in the form of the August crop report, which dicates a corn crop of 3,191,000,000 the country. The prospects improved during July to the extent of 66,000,000 bushels, and general rains over the corn belt since the reception of the data on which the report is based enhance still further the expectations of the farmers. The oats yield also will be a record breaker, but the report on wheat is a bit disappointing. The compaign for the raising next seaso of a crop of more than a billion bushels of wheat and 83,000,000 bushels of rye. The food\_control law authorizes the fixing of fair prices for wheat and is stiffening, and though in general the

to be used as ferfillzer. Every state is asked to plant as large an acreage in wheat and rye as is possible without upsetting proper farm practice. The experts in Washington say that while fertilizer may be scarce, there will be no shortage of seed, farm machinery or transportation facilities.

It Will Equal Two Bushels for Every Man, Woman and Child in the Land.

STAPLE FOODS TO ALLIES

Motto This Year is "Eat an Apple and Send a Biscuit"-Unusual Need For Handling Crop-May Be Short of Help.

The United States is about to har vest its great war crop of apples. It equals two bushels to every man, woman and child in the country. In order to send as much staple food as possible to our fighting allies, Americans are urged to use as many upples as possible. The motto this year is: "Entan apple and send a biscuit."

War conditions also confront the pple growers, for there is a scarcity pickers, and eareful preparation must now he made to see that this crop is all safely barvested and put into storage. Now is the time to begin organizing picking crows in every apple growing section: A survey of the situation shows that the farmer will need co-operation from business men in the towns and cities round about at which he trades, and which have just as great an interest in this crop as the farmer himself. This is mergency organization work to be taken up immediately by chambers of commèrce, boards of trade, state and county councils of defense, and business men generally.

The labor supply to harvest this crop exists right in the cities adjacent to the apple orchards in most cases but the druft and demands of factories and railroads for labor have disturbed the normal supply of workers upon which the farmer usually draws, and it is necessary to recruit new kinds of workers. People who have never regarded themselves as apfile pickers may this year be asked to go to the orchards and help get in the crop for patriotic reasons.

ther resources to servenere a preking force is to be recruited. Stores and factories can often release clerks and workmen for this service if notified in time. Families who would like a week or two of vacation in the country with light, healthy outdoor work at satisfactory wages, may also be induced to join the picking army. It has been suggested that the schools might be opened later this year so that boys and girls can be sent to the orchards, but this will not be necessary in all cases. One very good source of pickers can be found among the women's organizations of this country,

Much is heard about the scarcity of labor, but there is not as great a scarcity as most people imagine. upon whom the farmer depends in ordinary times have simply been shifted into other occupations, and war conditions demand that business men ster fn, locate other classes of workers who can be shifted to the orchards for this emergency and see that the farmer has plenty of beln.

The principles of careful fruit picking are very simple, and easily under stood. If the farmer can start with two or three experienced pickers and spend a little\_time\_explaining\_good picking methods to his volunteers he should get excellent results for these volunteers, while new to the work. also be people of good average intelligence, and the war emergency will appeal to their interest so that they will be more than ready to help harvest the crop skillfully.

touch with the business organizations in their nearest town, ask that help be pan with a little water in it, enough ready for use, and grow en in securing pickers and report the number of pickers needed by themselves. One of the greatest difficulties in organizing harvest hands for any crop is that of gathering accurate information as to how many helpers are needed on each farm and in each township. For lack of such information it very often happens that one township will be handlenged because it is without sufficient helpers and a township twenty-five or thirty miles away will have a surplus of workers. By ascertaining in advance just how many workers will be needed in each locality, business organizations will be able to recruit a sufficient force and there will be neither scarcity nor surplus in any section.

This year's upple crop calls for spe-cial methods of handling. The size of the crop makes it necessary to send only the first-class fruit to market and to see that all seconds and culls are sold in bulk around home or worked up into by-products. There must be great care to see that apples are not exposed to the heat or outdoors after picking, but are properly housed in temporary storage places on the farm and carefully cooled. The scarcity of pickers will probably make it neces sary to pick and house the crop first and grade and pack it afterwards. Full directions for handling the fruit will be published later.

The great big task immediately shead is that of securing a picking force, and in this work the business man and the farmer are co-operating to an extent never known before. This is a war crop. It will be harvested with a war organization.

A Call Misinterpreted.

"But I thought you said your friends demanded that you run for congress?" "That's what I thought," replied the defeated candidate, "but I've since concluded that it was my enemies who were looking for an easy man to snow under."

The organization work should take its absorbed. Dissolve gelutin in hell. two controls of saint in two teaspoonfuls of our mechanisms for sending them off." weglan people has been more or less modern technique has triumphed. The friendly to the Germans during the name of Toernebludh will always be friendly to the Germans during the whole war, but that minority has dwindled into a negligible quantity as result of the recent bomb plots.

> Dr. J. Filchner, the German Antarctle explorer, who discovered Prince Regent Luitpoid's land\_in \_1911, \_liasseted as the leader of the German spy system in Norway. Doctor Filchner, however, escaped to Germany before the Norwegian authorities were able to accumulate evidence warranting his arrest. The German explorer arrived in Norway during the early part of last winter and stayed for a while in Christiania, trying to establish "suitable connections" for a new press bureau. He soon transforred his field of activity to Bergen, where he started the press bureau with the help of several Norwegians. empted by the splendid remuneration promised them by the German agent. office of the bureau had been the headquarters of all the German spies operating along the western coast of. Norway, and information gathered through its efforts has been directly responsible for the destruction of

The saw itself is a chala rain formation by the diplomatic representatives of the neutrals affected. the government considers it lacks con--vincing-evidence regarding exports from these countries to Germany, and wants to take no chances of permitthig American goods to go through to

> The house on the Kokvold farm in been established beyond a doubt that no person has died in that house in the course of 132 years. A local news onper has published a complete record of all the people who have lived in the house since 1875. Anders Jamtvold is the present owner of the farm

A furious storm made a hopeless wreck of the Norweglan-American line that it was stolen. Not long ago sho steamship Khristianatjord, which ran received a letter from Conenhagen wreck of the Norweglan-American line aground near Cape Race recently. The crew, numbering 250, was forced to abandon her.

The Norwegian mission to the United States, headed by Fridtjof Nansen, called on Acting Secretary Poll of the state department and arranged for-discussion with officials on a work ing agreement for the importation into Norway of foodstuffs needed by that country. Nansen will be presented to President Wilson Inter.

The shipowners of Skien have no use for spies, and have offered a reward of 1,000 crowns for information leading to the arrest of a spy in Skien or Skienfjord, Norway. 

The steamer Forsete arrived at Tromso June 28, carrying 62 men from the Spitzbergen conl fields of the Norwegian mining syndicate and part of the crew of the Moholmen, which was lost. The men had mined 20,-000 tons of coal, which was to be taken to Norway as soon as the ice belt around Spitzbergen was broken. There was more sickness in Spitzbergen last winter than in former years. Two men died, but two births made up for

SWEDEN.

It was in December, 1914, that the postmaster general of Sweden sent Sixten Toernebladh, a young assist-unt who had made himself known as a man with punch, to Karungi to organize an efficient system for the exchange of mail between Sweden and Finland. Before the outbreak of the war the international postal routes to and from Russia were running through Germany and Austria and the ex-change of mail at the border between Sweden and Finland was therefore of purely local character. The Swedish postal authorities were com-pletely taken by surprise when a never-censing flood of packages and letters begun to pour into Karungt from the Finnish side of the border. There was absolutely no proper facilities for taking core of this enormous increase and the result was most chaptic conditions. Especially packages were piled up in thousands and-the postmuster general of Sweden was bombarded with complaints about long delays. The tremendous work of assorting all the mail at the beginning had to be done under the open sky at a temperature of about 40 to 50 belo zero. When the day's work was fin-ished; a side-tracked railway coach The transito. ward Haparanda and the border. This hade to be mobilized every day, and furm dwellings. More than one butselves in water up to their knees by sent south for a period of recreation. over Torne river, which constitutes the border line Days of hardshire are now something of the past. Unked with one of the most remark able performances in the history of the Universal Postal union. The muli for the prisoners of war in Russia, Germany and Austria-Hungary constitutes a considerable part of the postal\_transito truffic-through Sweden During the years 1915 and 1910 about 6,100,000 packages of this kind passed through that country. Sweden has done all this work free of charge, which means an economic sacrifice on the part of the public trensury amounting to approximately \$1,000,000.

. . . At a special business meeting the Stora Koppurberg Mining company re solved to contribute \$40,000 towards building a church for the employees lying at Bergslagstung. But it turned out that the workingmen of the place did not want any church, for the time being, at least.—An agitation was started to have the offer declined, the main argument being that the acceptance of the offer-would connel the people of the community to put up an expensive church. The question ing of the parish, and the workmen appeared in large numbers. made arrangements for a formal pa-

is worked by means of a motor. The whole apparatus weighs only 150 pounds: About 1,200 saws have been sold during the year, and it is praised wherever used. By means of a "seviment—a man can cut down 150 trees and saw them into logs in a day. The trees may be cut so close to the Aursund must be charmed, for it has ground that an average of almost balk a cubic foot of wood for each trees can be saved in this manner.

### DENMARK.

A woman in Mogenstrup lost \$20 last spring, but she could only guesa containing \$21 and thanking her very politely for the loan. The polite borrower neglected to write his name.

German submarines and mines are esponsible for the loss of 180 Danish ships.

Important improvements are to be made at the public market of Kjeller-up. The Krabbo monument is to be surrounded by a row of granite blocks, connected by a chain of great historio interest. The chain was part of the outfit of the Dannebrog, a warship commanded by Ivar Hvitfeldt, the famous naval hero, and which was blown up October 4, 1710, in Kjoge bay.

Many bright brains have been basy inventing substitutes for leather. Some of these sibstitutes are by no means failures. But a young Denish chemist claims to have gone all of them one better. By means of a chemical process he takes all kinds of scraps of leather and turns them into leather just as durable as the raw ma-

Opposite Russel Hotel

# MAXOTIRES

Maxotires are different from anything ever used before for an inner shoe to auto tires. When inserted they cement themselves to the tire thus there is no friction, and consequently there is no heating, and no chance for the Maxotire to wrinkle up and injure the inner tube.

They are wonders in cutting tire cost. They save vulcanizers' cost. They make motoring a pleasure and are guaranteed against blow-outs for one year. They have many other strong features that we cannot tell about in this small advertitement. Ask the man-who is using them—there many in Grayling.

Two small boys finding some straw He was well known around Frederic near the barn of Julius Nelson yesterday afternoon set fire to it and when the flames got beyond their control, they became frightened and ran away. A passer-by happened to notice the societies.—The convention will be flames and reported it to Mrs. Nelson, held Friday, Saturday and Sunday, who extinguished it with a few pails services in the Danish-Lutheran platform of the barn. In the barn was the new Buick auto of Tony Nelson and fifty gallons of gasoline Had-the-flames-not-been-seen when resulted.

The duPont company have been constructing a portable saw mill for the purpose of producing timber in the woods ready for their Grayling plant. Miller Rose reports that this s now complete and was shipt Tue day to one of James Smith's camp where it will be tested out in actual operation. Mr. Rose feels certain that this saw mill will cut the cost of production fully 50% and also help in solving the labor problem in the woods where men are hard to get. With this machine the timber, as it leaves, the saws, is conveyed by chain belts to the cars where an adjustable elevator loads it with very little hand labor. It is estimated that the mill will cut and load 20 to 30 cords per day.

Opposite Russel Hotel

# MAXOTIRES

Maxotires are different from anything ever used before for an inner shoe to auto tires. When inserted they cement themselves to the tire thus there is no friction, and consequently there is no heating, and no chance for the Maxotire to wrinkle up and injure the inner tube.

They are wonders in cutting tire cost.

They save vulcanizers cost. They make motoring a pleasure and are guaranteed against blow-outs for one year. They have many other strong features that we cannot tell about in this small advertitement. Ask the man who is using them—there many in Grayling.

STARTLING EXPOSURE OF INNER LIFE OF KAISER AND CROWN PRINCE AS TOLD BY COUNT ERNST VON HELTZENDORFF TO WILLIAM LEQUEUX

Cilli is a fool!" he had declared openly to me, after she had left the friend, Count Ernst von Heltsendorff, the latter's revelations of the inner lies of the imperial German court; has least been recognized throughout Eugram of official visits in eastern German and the peakers of its innermost secrets.

rope as the possessor of its tanermost secrets.

The English "Who's Who" says of the secret service of Continental countries and is considered by the government (of Greet Britais) as authority on such matters." Another authority asys: "Few people have been more closely associated with or know more of the astounding inner machinesty of Germany thin he."

LeQueux probably has more sources of secret information at his command than any contemporary in civil life, and for the last six years the British Government has made valuable use of his vast store of secret-information though a specially organized department with which leQueux works as a voluntary assistant.

Count-you Heltsendorff became un-in-

walts because we assistant.

Count-von Heltsendorff became un intimate of LeQueux several years prior
to the outbreak of the war; he has been
living in retirement in Vrance since
August, 1914, sad-4t-was there that Le-August, 1914, and 4t was there that bequeux received from the crown princelate personal adjutant permission to
make public these revelutions of the
inner life of the Hobeusolierus—that
the democracies of the world might
come to know the real, but heretotore
hidden, personalities of the two domimant members of the sutcornoy-they arenow arrayed against.

### **Another Victim of** the Crown Prince E <del>\*</del>----

ATE on the night of November 18, 1912, I was busily at work in the crown prince's room at the Marble palace at Potsdam. I, as his imperial highness' personal adjutant, had been traveling all day with him from Cologne to Berlin. We had done a tour of ullitary Inspections in Westphalia, and, as usual Willie's' conduct had not been exact ly exemplary.

On the night in question much had happened. The emperor had, a month. before, returned from a visit to England, where he had been engaged by speeches and handshakes, public and private, blowing a narcotic dust in the nostrils of your dear but too confiding nation.

"Heltzendorff!" axelaimed the prince, as he suddenly entered the com where I was busy attending to a pile of papers. "Do get through all hose-letters-and-things.—Burn-them all if you can. What do they mat-

"Many of them are matters of grave importance. Here, for instance, is a report of the chief of military intel-

ence in Washington."
"Oh, old Friesch! Tear it up! Heis-but-un-old-fossil at best. And yet. Heltzendorff, he is designed to be of considerable use," he added. "His majesty told me tonight that after his visit to England he has conceived the iden to establish an official movement for the improvement of better relations between Britain and Germany. The dear British are always ready to such movements with open arms. At Carlton House terrace they strongly indorse the emperor's ideas, and he tells me that the movement should first arise in commercial and shipping-electes. Herr Ballin will genthe idea in his offices in London and the various British ports, while his majesty has Von Gessler, the ex-Ills majesty has Von Gessler, the ex-gambassarior at Washington, he view as the man to bring forth the surges as the man to bring forth the surges as the man to bring forth the suggestion publicly. Indeed, tonight from the Wilhelmstrasse there has been sent a nessure to his coblece on the

commanding him to consult with his majesty. Von Bernstorff-took his place t Washington a few months aga."

"But Von Gessler is an inveterate enemy of Britain," I exclaimed in surprise, still sented at my table. "The world does not know that. The

whole scheme is based upon Britain's ignorance of our intentions. We bring Von Gessler forward as the dear, good, Anglophile friend with his hand outstretched from the Wilhelmstruss Oh, Heltzendorff!" he inughed. "It is really intensely amusing, is it not?" I was silent. I knew that the deep-

ly laid plot against Great Britain was proceeding apace. "Get through all that-tonight is

you can, Heltzendorff," the crown princess leaves for Tresehurg, in the Harz, tomorrow, and in the evening we go-to Nice." "To Nice!" I exclaimed.

"Yes," he said. "I have

A friend there! I reflected. I could only suppose that the attraction in Nice was of the feminine gender Then the lady is in Nice!" I-re-

marked, for sometimes I was permit ted, on account of my long service with the emperor, to speak familiarly "Lady, no!" he retorted. "It is man. And I want to get to Nice at th

earliest moment. So get through those infernal documents. Burn them all They are better out of the way," he

### The Trip to Nice.

Just before eleven o'clock following night we left the Marmor palace. His imperial highness trav eled incognito as he always did wher visiting France, assuming the name of Count von Grunau. With us was his personal valet, Schuler, the military secretary, Major Lentze, and Eckardt, the commissioner of secret police for his highness' personal protection.

After a restless night-for there were many stoppages-I spent nex day with the crown prince in long and tiring discussions on military affairs. I endeavored to obtain from him some IGN--- Way we were - proceeding to Nice, but to all my inquiries he was

with departs. Only a fortnight before he had a quarrel with his wife.

cess entered, pale with anger and demanded fiercely an explanation of a certain anonymous letter which she

"Kindly read that!" she said haughtlly, "and explain what it means," The crown prince grinned, that cold sinister expression overspreading his countenance, a look which is such a

marked characteristic of his.

Then, nimost snatching the letter from his young wife's fingers, he read it through, and with a sudden move ment tore it up and flung it upon the carpet, saying:

"I refuse to discuss any unsigned letter! Really, if we were to notice every letter written by the common seum we should, indeed, have sufficient ter des.

His wife's arched brows narrowed Her face betrayed hercest anger.
"I happen to have inquired, and I now know that those allegations are correct." she cried. "This dark-haired singer-woman, Irene Speroni, has obtained great success on the variety stage in Italy. She is the star of the Sala Margherita in Rome."

"Well?" he asked in defiance. "And what of it, pray?"

"That letter you have destroyed tells me the truth. I received it a few days ago, and sent an agent to-Italy in order to learn the truth. He has returned\_tonight. See!" - And-suddenly she produced a crumpled snapshot photograph of the crown princ in his polo-playing garb, and with him a smartly-dressed young woman whose features were in the shadow. "Yes," she cried bitterly. "You re

fuse, of course, to look upon this piece In Unter den Linden. Seel Here is the table in the corner whereat I was the bill for them!"

And again she produced a slip of The scene ended in the poor woman,

hr a trantic paroxysm of despair, tearing off the splendid necklet of dia monds at her throat his present to her on their marriage and casting it full into his face.

Then realizing that the scene had become too trugic, I took her small hand, and, with a word of sympathy

As I left her she burst into a sudden torrent of tears; yet when I returned again to the crown prince I found his manner had entirely changed. . He treated his wife's natural resentment and indignation as a huge loke; and it was then that his imperial highness declared to me:

"Cilli Is a foot;" "Listen, Heltzendorff," his highnes exclaimed suddenly. "In Nice I may disappear for a day or two. I may be missing. But if I am, please don't raise a fass about it. I'm incognito, and nobody will know. I may be absent for seven days. If I am not back by that thue then you may make in

marked in surprise.

"No. He won't know. I shall evade him as Eve often done before," re-plied his imperial highness, "I tell you of my intentions so that you may curb the activities of our most estimable friend. Tell him not to worry, and then, glancing round, she added: "This he will be paid a thousand marks on the day Count von Grunau reappears."

I smiled, for I saw the influence of the eternal feminine.
"No. Heltzendorm. You are quite

mistaken," he said, reading my thoughts. "There is no lady in this case. I am out here for secret purposes of my own. For that reason I than that unnecessary inquiry should he made and some of those infernal journalists get hold of the fact that the Count von Grunau and the crown prince are one and the same person. was a fool to take this salon. I ought to have traveled as an ordinary pas-senger, I know, but," he laughed, "this is really comfortable and, after all, what do we care what the world thinks eh? Surely we can afford to laugh at it when all the honors of the game are already in our hands."

His words mystified me, but I be ame even more mystified by his actions a few days later.

I was in ignorance that a fortnigh before Hermann Hardt, one of his highness' couriers, had left Potsday and on arrival at Nice had rented for three months the fine Villa Lilar We soon settled there and on the evening of our arrival I accompanied the crown prince down into the town

to the Jetee promenade. We smoked together and chatted, as we often did when his imperial high ness became bored. I was still mystifled why we had come to the Riviera so early in the season.

Yet our coming had, no doubt, heer privately signaled, because within half an hour of our arrival at the Villa Lilas a short, stout old Frenchman with white, bristly hair-who I afterward found out was Monsieur Paul Bayouzet, the newly appointed prefect of the department of Alpes-Maritimes

called, to leave his card, upon the Count von Grunau.

The imperial incognito only means that the public are to be deluded. Offcialdom never is. They know the ruse and support it all the world over. His se the crown prince was paying his annual visit to Nice, and the presiA LETTER FROM THE CROWN PRINCE'S PERSONAL ADJUTANT TO WILLIAM LEQUEUX, POSSESSOR OF THE SECRETS OF EUROPE.

Venoux Nadon, par Moret-sur-Loing, Scine-et-Marne, February 10th, 1917.

My dear LeQueux:

I have just finished reading the proofs of your articles describing my life as an official at the imperial court at Potadam, and the two or three small errors you made I have duly corrected.

The gross scandals and wily intrigues which I have reinted to you were many of them known to yourself; for, as the intimate friend of Iulian, the ex-crown princess of Naxony, you were, before the war, closely associated with many of those at court whose names appear in these articles.

closery associates which I have made, and which you have recorded there are but a dishe of the disclosures which I could make, and if the world desires more, I shall be pleased to furnish you with other and even more startling details, which you may also put into print.

My service as personal adjustant to the German crown prince is, happilly, at an end, and now, with the treachery of Germany against civiling the more approached. I feel in my retirement, no computation in ngly revealed, I feel, in my retirement, no compunction in I know concerning the secrets of the knizer and his sonspooling-all-I know concerning the With most cordin greetings from

little prefect As I departed from the crown prince

who vawned and declared that he was tired, he said:

"Ah! Heltzendorff, How good it is to get a breath of soft air from the

on this pleasant sea one day-if we live as long-eh?" That remark showed the trend of events. It showed how, hand, in hand with the emperor, he was urging preparations for war-u war that had for its prinmry object the destruction of

### The Mysterious Lady.

After we had been at the Villa Lilas about ten days I was one afternoon sented outside the popular Cafe de Popera, in the Place Massena, when a of evidence! I now know why you lady, dressed in deep mounting and sity for an interview with his high went to Wiesladen. The woman was wearing the heavy vell in French style, hess, when whatever you tell me as singing there, and you gave her a pair passed along the pavement, glanced at his personal adjunct will be regarded. of emerald and diamond earrings me, and then hesitating, she turned, coming buck, advanced to the litsitting.

"May I be permitted to have a with you, monsteur?" she asked in French, in a low, refined voice,

and drew a chair for h

She glanced round quickly, as though to satisfy herself that she she was about twenty-four, handsome, dark-imired, with well-cut features. "I know, monsieur, that I am a com-

plete stranger to you," she exclaimed tograph in my hand. with a smile, but to me you are quite familiar by sight. I have passed you and did not get back to the villa until many times in Berlin and in Potsdam, and I know that you are Count von Heltzendorff, personal adjutant to-his

"You know that!" I exclaimed.

She smiled mysteriously, replying: eYes. T-well, I happen to be a

friend of his highness."

I held my breath. So this pretty oung Frenchwoman was one of my imperial master's friends! " ;

"The fact is." she went on, "I have traveled a considerable distance to see you. I said that I was one of the crown prince's friends. Please do not nisunderstand me. I know that he has a good many friends, but I have never been introduced to him, and he ered his self-possession and said:
does not know me. I am his friend "Yes, of course, I know her. because of a certain friendliness to- wants me to write to Julie de Rouville Heitzendorff! I have not overlooked the ward him."

derstand," I said.

place is a little too public. Cannot we go across the garden yonder?" I rose and walked with her to a

quiet spot in the gardens. She\_told\_me\_that\_hes\_nan Julia de Rouville, but she would give

no account of where she lived. "I have ventured to approach you, because I cannot approach the crown take you into my confidence rather brince," she said presently, "You prob-

ably do not know the true reason ofhis visit here to Nice? "No," I said ... I admit that I do not. . Why is he here?"

"It is a secret of his own. But, I am aware of the reason, and that is

why I have sought you. Would it surprise you if I told you that in a certain quarter in France it will, in a few days, be known that the German emperor is establishing a movement for in entente between Germany and Britain, and that the whole affair is based upon a fraud? The emperor wants no entente, but only war with France and with Britain. The whole plot will be exposed in a few days!"

"From what source have you deived this knowledge?" I asked, looking at her in amazement.

she again smiled mysteriously, and said: "I merely tell you this in order to

prove to you that I am in possession of certain facts known to but few peo-

"You evidently are," I said. "But who intends to betray the Gruth to "I regret, count, that I cannot an-

ver your question." "If you are, as you say, the crown prince's friend, it would surely be a friendly act to let us know the truth, so that steps may be taken, perhaps, to avoid the secret of Germany's diplomacy from leaking out to her ene-

"All I can tell you, count, is that the matter is one of the gravest importance. "But will you not speak openly, and

give us the actual facts?" "I will-but to his imperial highness alone." Was her answer.

dent had sent his compliments through | an Interview, then I will reveal all I his representative, the bristly-haired know, and, further, will suggest a means of preventing the truth from leaking out.

"But you are French." I said. "I have told you so," she laughed. "But probably his highness will refuse Julie de Rouville, therefore, I think it best if you show him this."
From her little gold chain-purse she Moditerraneau! We shall have a port

produced a small, unmounted photograph of herself, and handed it to me. "When he recognizes who wishes to see him he will understand," she said, in a quiet, refined voice. "A letter addressed\_to\_Julie\_de\_Rouville\_ut\_the the powers which, when the volcano Post Restante at Marseilles will quick-erupted, united as utilies.

Post Restante at Marseilles will quick-ly find me. I do not wish the letter to be sent to me here. From Marselltes I shall duly receive it."

I was silent for a few moments "I confess," I exclaimed at last. "I confess I do not exactly see the neces sity for an interview with his highed as strictly in confidence.

I have already said, Count von Heltzendorff, that I am his highness friend, and wish to approach him with s of friendship. You wish for no payment for this

rench, in a low, refined voice, information, eh? I asked suspiciously, receitainty, was my reply, and I half believing that she might be used. "Payment-of course not!" she an

swered, half indigmently, "Show that would not be overheard. I saw that photograph to the crown prince, and tell him-that-I apply for an interview." Then, rather abruptly, she rose and walked away, leaving me with her pho-

after seven o'clock.

As soon as I heard of his return I went to his room and recounted my highness the crown prince—or Count strange adventure with the dark-yon Grunau, as he is known here in haired young woman in black. He became keenly interested, and the more so when I told him of her secret knowledge of the kniser's intended es tablishment of a bogus entente with

trent-Beltain. "She wishes to see you," I said, "And she told me to give you her pho-

tograph. I handed it to him. At sight of it his face instantly changed. He held his breath and then examined the photograph beneath the

light. Next second however, he had recov "Yes, of course, I know her. She

at the Post Restante at Marseilles, ch? dame. I don't quite und H'm-I'll think it over." Late in the afternoon, two-days-later, his highness, who had been walk ing alone, returned to the villa with a stranger, a tall, rather thin, fairhaired man, undoubtedly a German and the pair were closeted together

holding counsel evidently for a considerable\_time.-Where-his\_highness me him I knew not, but when later on I entered the room I saw that the pair were on quite friendly terms . His highness addressed him as Herr Schafer, and when he had left he told me that he was from the Wilhelm

strasse and had been attached to the embassy at Washington, and after wards in London, "for affairs of the Whatever was in progress was

strict secret between the pair. The more I saw of Hans Schafer the more I disliked him. He had cruel eyes and I could see that he was a very clever and cunning person. For a full fortnight the crown prince

and the man Schafer were almost in separable. Was it for the purpose of meeting Schafer that he had gone to Nice? The man had been back from London about two months and had, I learnt, been lately living in Paris.

One evening while strolling alon the tree-lined Promenade des Anglaie I suddenly encountered Julie de Rouville, dressed in mourning, a quiet, pa thotic figure, just as we had last me I instantly recollected that since the evening when I had given her photo graph to the crown prince he had never mentioned her.

"Ah, count!" she cried. "This is indeed - welcome meeting! I have been looking out for you for the past two days."
"I've been staying over at Cannes,"

was my reply. "Well?" "I have to thank you for giving my photograph and message to his high "I trust that the crown prince has

written you—eh?" "Well, no-" was her rather vague reply. "Then how are you aware that I

gave your message? She shook her head and smiled. "I had my own means of discovery. By certain signs I knew you had cardread daily lest the truth of the spondence had learned the real truth kaiser's real intentions be known at the Quai d'Orsay."

"Certainly," was my reply. "I will deliver your message this evening.' "Tell him that my sole desire is to act in the interests of the emperor and

himself," she urged. "But, forgive me," I said, "I canno see why you should interest yourself troduced her to a young French mar-in the crown prince if he declines to quis, de-Vienne by name, who pestered communicate with you."

"I have my reasons, Count-von-Heltzendorff," was her rather haughty reply. "Please tell him that the mafter ull not brook further delay."

I had seen in the London newspapers during the past week how eagerly watch, the English Journalists, with the dust east into their eyes, were blindly advo-cating that the British public should welcome the great German national lieved, movement, headed by Baron von Gess- Hers ler, supported by Ballin, Delbruck and Von Wedel, with the hearty co-operation of the emperor and the imperi- tity. al chancellor-the movement to estabish better relations with Great Bri

I knew that the secret should at all manrds be kept, and that night I told the crown prince of my second meetng with the pretty woman in black and her urgent request.

He laughed, but made no remark Yet I knew by his tone that he was not so easy in his mind as he desired me to believe,

It also seemed strange why, if the

young Frenchwoman of meeting him, she did not call at the villa

About a week later it suddenly oc the real identity of the indy in black but as I was not certain whether she actually lived in Nice it was rather difficult. difficult. Nevertheless, by invoking the aid of my friend Belabre, inspector. of the Surete of Nice, and ofter walt ing a few days I made an astounding discovery, namely, that the lady who called herself De Ronville was an Ita-Speronl-the woman who had aroused jerdousy of the crown princes And she knew that important state seeret of Germany!

The situation was a most serious ne. 1 felt it my duty to mention my discovery to his highness, when, to my surprise, he was not in the least angry. He merely said:

"It is true, Heltzendorff—trug dybat the crown princess declared—that I went to Wiesbaden and that I gave the woman a pair of emerald earrings which I ordered from old Vollgold. But there was no reason for Jenlousy.

-L-saw-the-woman and gave her the -L-saw-the-woman and gave present in the hope of closing her

In a moment I understood. The prefty variety artiste was endeavoring a levy blackmail. But how could she In her position, have learned the secre

of the emperor's intentions?-She was, I found, living as Signorina Speroni, with her mald-at-the-Hotel Bristol over at Benullen, just across the blue bay of Villefranche, and as the days-went-on-1-realized the imminent

danger of exposure, and wondered if the kniser-knew-of-H. I made a remark to that effect to his

As he started to leave the store he no The woman obtained the secret by liced some neat looking boxes that opening the dispatch box of one who contained samples of axie grease. believed her to be his friend, and then she attempted to use her knowledge in "what's these little boxes of cheese order to drag me into her net. But I worth?" "Oh," says the grocer, "those do not think. I am very likely to be

At that moment Herr Schafer entered the room, therefore further dis

cussion was out of the question. From inquiries I made later found that the concert singer had suddealy left the hotel, therefore I went over to Beaulieu and had an instructive chat with the hall porter, a Gen man, of course. From him I learned that the signorina had been staying there ever since the date when we had arrived at Nice and, further, that two gentlemen and been frequently in the habit of calling upon her. One was a smart young Frenchman who came in motor car and the other was a Ger man. From the description of the latter I at once came to the conclusion that it was none other than Herr Scha-

fer. "The one gentleman did not know of the other's visits," said the bearded porter, with a laugh. "The signorina always impressed silence upon me, hecause she thought one would be jealous of the other. The German gentleman seemed very deeply in love with her, and she called him Hans. He accompanied her when she left here for

he made no remark. A week later ome fishermen found upon the brown rocks near Capo Verde, beyond San was denied that dress, was persisten Remo, the body of a woman, fully in her entreaties for it, so her moth-dressed, afterwards identified as that er, to convince the child, tried the of Irene Speroni, the singer so popu- dress on and said: Don't you see how lar in Rome.

It was proved that on the previous night she had been seen by two pens-ants walking along the sea road near San Lorenzo, accompanied by a tall thin man, who seemed greatly excited, and was talking in German. It was believed by the Italian police that the unknown German, in a fit of jealousy,

threw her into the sea.

From facts I gathered some months later I realized that the whole plo-had been most cunningly conceived lone," was her answer.

By certain signs I knew you had care Schafer, after his return from Americand are always ready to guard "If his highness will honor me with ried out your promise," she said. "But ca, had met the woman Speroni, who and defend it.—Daniel Webster. Schafer, after his return from Ameri

as I have heard nothing, I wish you to was 'performing in London, and she deliver another message—a very urgent had, unknown to him, opened his disone. Tell him I must see him, for I patch box and from some secret correregarding the proposed entente which the emperor contemplated.

Schafer, alarmed at the woman's knowledge, and yet fascinated by her charms, had gone to the crown prince, and he, in turn, had seen the woman in Wiesbaden. Finding her so dangerous-to the emperor's plans he first introduced her to a young French marher with his attentions, and followed her to Beaulieu. Having so far succeeded, the crown prince went to Nice and played upon Schafer's love for the un, pointing out that she was playing a double-game and urging him to

He did so and discovered the truth, Then there occurred the tragedy of rationsy, exactly as the police be-

Herr Schafer had, however, escaped to Germany, and the police of San Remo are still in ignorance of his iden-

(Copyright, 1917, William LeQueux.) Death From Superstition.

A superstitious Buddhist caused man's death in Mura, Japan, A deater in clogs went mad, owing to money troubles. His wife and his sister consulted a Buddhist. The ignorant de votce, believing that the man was possessed by a fox, advised them to take him to Nose temple. In accordance with the request of the man's relatives the devotee took the lunatic to Nose temple, where he threw him in a pool beneath a waterfall known as Shintaki, holding him fast there with ropes. He repeated the process for a fewfdays. Needless to say the lunatic's health suffered considerably by this extraordimiry treatment. A few days later, at about 4 n. m., the zeulot threw lamatic in the basin of the waterfull us usual and left him there for a few hours, Before he returned the man died from exhaustion and cold. Amuzed at this result the ignorant bigot buried the body in a temple known as Takusonii in the same village, and made out that the lunatic had died from a sudden filness. The police, however, heard of the affair and arrested the man.

Dickens' Forensic Masterpiece. Dickens'-lawyers: are-legion,-but none of them has a stronger hold or the memory of his renders than Sergennt Buxfuz, whose perorntion in Bardell vs. Pickwick ranks as a foren-sic masterpiece: "But Pickwick, gentlemen, Pickwick, the ruthless destroy er\_of-this-domestic-oasis-in-the-desert of Goswell street-Pickwick, who has choked up the well and thrown ashe on the sward-Pickwick who comes before you today with his heartless tounto sauce and warming pans-Pickwick still rears his head with unblush ing effrontery and gazes without a sigh on the ruln he has made. Damages, gentlemen, heavy damages, is the only punishment with which you can visit him—the only recompense you can award to my client. And for those damages she now appeals to an en-lightened, a high-initided, a right-feeling, a conscientious, a dispassionate, a sympathizing, a contemplative jury of her civilized countrymen."

### Beware of Closed Mind.

News.

Reware of the closed mind. This sounds like a paradox when addressed to young men, yet it will, I think, bear examination. It is a truism to say that the danger of maturity, and especially of age, is the closing of the mind to new ideas. Habit, most nowerful of influences, hard experience the very passage of the years, all alike tend to stiffen the muscles and to harden the arteries of the mind as they do those of the body. It is a misfortune with which advancing age must struggle, and the effort is severe and too often either neglected or fruitless.-Senator Henry Cabot Lodge

# SHE HAD SPENT A SMALL FORTUNE

Says That No Medicine Ever Gave Her Relief Until She Took Tanlac.

# SUFFERED SIX YEARS

Taniac Certainly Has Been a Wonderful Thing for Me," Says Mrs. E. M. Moodie of Detroit.

"I spent a small fortune trying to get relief but nothing did me any good except just for the time being until I started taking Tanlac," is the statement of Mrs. E. M. Moodie, who re-sides at 481 Kercheval street, Detroit,

Mich., a few days ago.
"I suffered with nervous stomack trouble and indigestion for six years," she continued. "My food would not digest but would just lay in my stomach and sour and the gas formed by it would crowd around my heart so at times that I could hardly breathe. I had intense burning pains in my stomach and was very nervous and weak and worn-out and couldn't do any housework I dared not touch meat or vegetables and couldn't even cat eggs without suffering torture. I was in an awful condition and only those suffering from the same trouble can realize what I went through.

"I am just now half through with my third bottle of Tanlac and honestly it has done me more good than all the other medicines I ever took combined. I don't have to live on milk and stale brend any more. The fact is I can eat-meats, fruits, vegetables and anything I want and it all agrees with me. I am simply feeling like a new woman and my work is now a pleasure instead of a burden as it was before. Tanlac certainly has been a wonder-ful thing for me."

There is a Tanlac dealer in your town,-Adv.

USES TURF INSTEAD OF COAL Switzerland, on Account of the War, is Forced to Fall Back on

Peat as Fuel. According to a report to the department of commerce from William Kent, consul at Berne, Switzerland, the exigencies of war, and the inability to import coal in quantity sufficient to meet the needs of the population have induced the Swiss government, through semi-official organization, known as the Science Co-operative Suisso de la Tourbe, whose address is Berne, to resort to the use of turf or peat as a ubstitute or to supplement the insuff

cient supply of coal. The association is in the market for the purchase of improved machinery for cutting, raising, drying, and com pressing turf. Turf or peat as a fuel s not a satisfactory and complete substitute for coal, on account of its low calorific properties, particularly for steam generation, but in those perions of the United States where it abounds it may be used to advantage for domestic consumption by admixture with coal, not only saving the cost of distant transportation of coal. but producing sufficient heat at a

# WOMAN COULD TIME IS RIPE FOR HARDLY STAND . ADDING TO FLOCKS

Sheep Are Needed to Turn Roughage Into Profits.

EWE PAYS FOR SELF IN YEAR

Purchase of a Moderate-Sized Breeding Flock, Therefore, Should Be Safe investment.

By GEORGE A BROWN. Department of Animal Husbandry Michigan Agricultural College.

East Lansing, Mich.—With the pros-pect that the corn crop, even if it doesn't fully mature, will at least produce a large umount of fodder, the are not a few farmers this season who must find a way for disposing of this roughage that will insure some re-Roughinge, unless fed to live stock, has little if any value, . The problem, therefore, is one of finding stock to consume and convert this roughage into a marketable product. On farms where there are too few

animals at present to make away with the roughinge supply, the far-sighted farmer will find it good business this season to either purchase young stock to feed out, or better still, if pasture is available to establish a breeding herd or flock to remain permanently on the farm.

Some men are inclined to avoid hun-ding sheep, but for the individual who has any liking at all for this class of stock, sheep are well worth giving some thought to this season. In the first place, wool and mutton-are-selling at high levels, with everything apparently in favor of these prices confinning for some time. When we consider that a breeding ewe will pay for herself the first year under careful management, the purchase of a moderate sized breeding fock should prove a safe investment. As much cannot two years must clapse before their off-

pring will be ready for market. But, in addition to these points mentioned, sheep as destroyers of noxious weeds have no equal. The absence of yeeds on farms where sheep are kent s always noticeable. As a means of increasing fertility, also, sheep are a valuable adjunct to the farm, for sheep manure, aside from being richer in ferfarm animals, is better preserved in the winter and more theroughly dis-

Sheep can be kept almost exclusive ly on roughage, with but a limited grain allowance at certain seasons of A durky in Louisville who had gone grain allowance at certain seasons of broke in a crap game turned to a the year. This leaves the bulk of the friend and requested the temporary ac- grain produced to be sold for domestic uses. Other important factors in favor of flock husbandry at this time are those of labor and the necessary equipment in buildings, both of these items being much less for sheep than with any other class of farm animals. ### WOODLOTS FURNISH FORAGE

Hogs Make Good Gains Frequently on Acorns and Other Seeds.

East Lansing, Mich.-The woodlot has long been prized as a cool and re-freshing place for foraging sheep and cattle, but it frequently happens that farmers-forget that their hogs also might gain something from the browpress bulletin just issued by the Michigan agricultural college. In foreign gan agricultural college. countries hogs are often fattened exclusively upon the nuts, seeds and un and

Hogs should be permitted to clean up the acorns. The razor-back of the South begins to fatten as soon as the acorn crop matures, but in this sec tion the crop is usually left for the squirrels. The forage resources unler- oak -trees -in -early -autumn -are

There need be no fear of hogs causing serious harm to the trees. They seldom eat the foliage even of seedlings and their rooting up the soil seems to better prepare it as a seed bed. Enough seed is overlooked by the swine to give abundant reproduc-

tion for another crop of trees.

Hog foraging in oak woods has another advantage in that many insects in the acorns and other seeds are deoured. In foreign countries this for aging is looked upon very favorably as means of keeping down insect pests. In this country also it should receive more attention as a means of conserving the supply of other hog feeds.

### WHEAT NEEDS PHOSPHOROUS

Application of This Element to the Soil This Season Would Help Crop.

By PROF. J. F. COX. Department of Farm Grops, Michigan

visable now and then to take a ton possible, or two of salt with some of the claims of miracle-working made by fertilizer failed to men, who in selling fertilizers sometimes sell-the farmer also. Despite these occasional exaggerations, however, there is nevertheless no question about the value of phosphates applied guaranteed.

Coal Mine Found at Grass Roots. A four-foot seam of coal, eight feet

The women of the old dramas and the old novels are not more womanly sent you flying?" "Yes, sent me fly-women than the tax-paying, self-sup-ing." "Did it have on it any distinguishing mark?" "Yes, a placard read-

to the wheat crop at the right time, in right amounts." Phosphates should return to the farmer several times over what he spends for them, and this season their use is to be particularly rec-

The beneficial element in phosphate fertilizers, of course, is phosphorous and it is without doubt the most helpful substance that can be applied to the wheat crop. Wheat requires a large amount of phosphorous in order to fill out plump grains and to yield heavily, but Michigan soils as a rule are deficient in this mineral. The application of acid phosphate hastens maturity and increases the yield. At the Michigan experiment station

200 pounds per acre on wheat gives a return of six bushels or over 600 per cent on money invested in fertilizer. Under average conditions about 250 to 800 pounds of acid phosphate should be applied at time of seeding, either broadcast or through a fertilizer at tachment.

Acid phosphafe is particularly effective when used to re-enforce manure. Twenty-five nounds of acid phoswiliplinte\_with-each-ton-of-manure more than double its value and pay caused more argument than the Eufor the phosphate as well. Rock phosphate is also valuable

## SCOUTS AIDING HOOVER

A Scout who eats corn pone for breakfast instead of a slice of wheat bread may have no idea of performing a patriotic duty, but upon just such mull choices depends the success of the United States in the present strug-

The president long ago recognized the necessity of producing the maximum of food, utilizing all of it to the hest advantage and preventing waste. For this purpose he appointed Mr. Herbert Hoover as American food administrator.

The housewife holds the key to the situation. If each saves a pound of brend a week for each person in the family, we shall have 100,000,000 bushels inore of wheat this year for our allies. A saving of two cents on each meal every day for each person will save to the nation for war purpose \$2,000,000,000 a year. Every Scout will be glad to help his mother and the share of the burden of war. Even though he prefers tonsted wheat bread, he will cat his corn gladly and have the wheat for the allies.

Even though he likes meat, he will ent his reduced portion cheerfully, remembering that beyond the sens are Scouts who have not tasted ment for months.

He will apply the butter more thinly, and also learn to relish food which contains the minimum of shortening. He will ask for vegetables and fruits grown in the home town, for these the

railroads do not have to carry. He will put on his plate only that which he is sure he can eat, and then clean the plate.

He will-help-with the canning and preserving, as well as the harvesting. food administration.

Mr. Hoover has sent this letter to Chief Scout Executive James E. West:
"I particularly hope that the Boy

"GOSPEL OF THE CLEAN PLATE." The Boy Scout Wastes Nothing, And If He Gets Two Helpings He Cleans That Up Too.

Istration. I should like to have them out in managing the food problems of

the country. "I know that they have already assisted greatly in stimulating food production.

"We are planning to ask all of the homes in America to rearrange their food supply in the most intelligent manner. The Boy Scouts can help out in this by assisting in the earoliment of the women of the country in the food administration. Our plan is to ask that a pledge be signed and that a house designed as a United States shield with a few heads of wheat about it, be put up in the window of each home.

"Many homes will be difficult to reach. If, as the campaign progresses, the Boy Scouts can help us to see where it is not being carried on successfully we can arrange to have workers sent there, and in that way get everybody possible interested.

"Where the Secuts are well organ-ized we hope that they can make a check for us of the homes that are members and those that are not, to assist us in this work.

"Another way in which the Boy Scouts can help is by making a study of our plans as they appear, and in trying to see that they themselves, as well as members of their family, live in to them. We hope that the scouts will follow

the 'gospel of the clean plate,' to see that they are helped liberally enough to meet all of their needs, but that

"We want the Scouts to protect the wheat of the country by enting a mini-mum of white bread."

That last is laying it rather heavily on the scouts. Giving up wheat bread sn't in itself such a hardship, but when one considers that the slice of bread is mainly used as a background for jam or honey, or even the humble molasses, then the duty becomes a sacrifice indeed.

### FINANCE TROOP GARDEN.

A public supper netted Troop 4 of Barre. Vt. \$50 to finance the troop garden in which the Scouts have plantcd potatoes, beans, and hubbard

### NINETEEN MILES OF BEANS.

The Boy Scouts of Englewood, N. J have planted 19 miles of beans. The work done included spreading lime on the entire tract, furrowing with planet cultivator, spreading fertilizer in furrows, covering fertilizer by dragging hoe, planting and covering and cultivating. They should gain a high rank in the roll of honor which will be prepared when the work is finished—the undertaking of "Every Scout to Feed a Soldier."

### **Another Victim of** the Crown Prince ±

ATE on the night of November 18, 1912, I was busily at work in the crown prince's room at the Marble palace at Potsdam. I, as his imperial highness' personal adjutant, had been traveling all day with him from Cologne to Beriin. We had done a tour of military inspections in Westphalin, and, as usual, "Wille's" conduct had not been exact ly exemplary.

On the night in question much had happened. The emperor had a month before, returned from a visit to line speeches and handshakes, public and private, blowing a narcotle dust in the nostrils of your dear but too confiding

"Heltzendorff!" exclaimed the crown pile of papers. "Do get through all those letters and things. Burn them: all if you can. What do they mat-

"Many of them are matters of grave importance. Here, for instance, is a report of the chief of military intelligence in Washington."

"Oh, old Friesch! Tear it up! He is\_but\_an\_old\_fossil=at\_best. And yet, Heltzendorff, he is designed to be of considerable use," he added. "His malesty told me tonight that after his <del>dsit to England he has conceived the</del> iden to establish an official movement for the improvement of better relations between Britain and Germany The dear British are always ready to receive such movements with open arms. At Carlton House terrace they. strongly indorse the emperor's ideas tells me that the movement and he tells me that the movement should first arise in commercial and shipping circles. Herr Ballin will, generate the idea in his offices in Landon and the various British ports, while his majesty has Von Gessler, the exambassador at Washington, in view as the man to bring forth the suggestion publicly: Indeed, tonight from the Wilhelmstrasse there has been sent a message to his schloss on the Mosel commanding him to consult with his at Washington a few months ago."

"But Von Gessier is an inveterateenemy of Britain," I exclaimed in Surprise, still seated at my table.

"The world does not know that. The whole scheme is based upon Britain's ignorance of our intentions. We bring Von Gessler forward as the dear, good, Anglophile friend with his hand outtretched from the Wilhelmstrusse. Oh, Heltzendorff!" he laughed. "It is really intensely amusing, is it not?" I was silent. I knew that the deeply laid plot against Great Britain was

proceeding apace.
"Get through all that—tonight if you can, Heltzendorff," the crown princess leaves for Treseburg, in the Harz, tomorrow, and in the evening we

"To Nice!" I excluimed.

"Yes," he said. "I have a friend there." A friend there! I reflected. I could

only suppose that the attraction in Nice was of the feminine gender. "Then the lady is in Nice!" I re marked, for sometimes I was permit-

ted, on account of my long service with the emperor, to speak familiarly. "Lady, no!" he retorted, "It is And I want to get to Nice at the enricest moment. So get through those infernal documents. Burn them all. They are better out of the way," he

### The Trip to Nice.

Just before eleven o'clock on the following night we left the Marmor palace. His imperial highness traveled incognito as he always did when visiting France, assuming the name of Count von Grunau. With us was his privately signaled, because within half personal valet, Schuler, the military secretary, Major Lentze, and Eckardt the commissioner of secret police for his highness' personal protection.

were many stoppages—I spent next of the department of Alpes-Maritimes discussions on military discussions of the department of tiring discussions on military affairs. I endeavored to obtain from him some Nice, but to all my inquiries he was

emiliosiy dumb. Only a fortnight before he had had a quarrel with his wife.

"Cilli is a fool!" he had declared openly to me, after she had left the room in anger.

en busy arranging a pro grain of official visits in eastern Germany, when suddenly the crown princess entered, pale with anger and demanded fiercely an explanation of a certain anonymous letter which she held in her hand.

"Kindly read that!" she said haughtily, "and explain what it means." The crown prince grinned, that cold sinister expression overspreading his countenance, a look which is such a

marked characteristic of his Then, almost snatching the letter from his young wife's fingers; he read it through, and with a sudden move ment tore it up and flung it upon the

carpet, saying: "I refuse to discuss any unsigned letter! Really, if we were to notice

singer-woman, Irene Speroni, has obtained great success on the stage in Itnly. She is the star of the Sala Margherita in Rome."

"Well?" he asked in defiance. what of it, pray?"

"That-letter you have destroyed tells me the truth. I received it a few days ago, and sent an agent to Italy order to learn the truth. He has returned tonight. See!" And suddenly she produced a crumpled snapshot photograph of the crown prince in his polo-playing garb, and with him a smartly-dressed young woman, whose features were in the shadow.

"Yes," she cried bitterly. "You refuse, of course, to look upon this piece of evidence! I now know why you lady, drossed in deep mourning and went to Wiesbaden. The woman was wearing the heavy vell-in-French style. singing there, and you gave her a pair of emerald and diamond earrings me, and then, hesitating, she turned, which you purchased from Vollgold and coming back, advanced to the lit-

the bill for them!" -And again she produced

paper, The scene ended in the poor woman n a frantic mitoxysm-of-despuir, tentprince—as he suddenly entered the line of the splendid needlet of dia-room where I was busy attending to a monds at her threat—his present to monds at her throat--his present to ther on their marriage—and casting it full into his face.

Then, realizing that the scene had become too tragic, I took her small dark-haired, with well-cut features. hand, and, with a word of sympathy led her out of the room and along the

declared to me: "Cilli is a foot?"

"Listen Heltzendorff." his highne exclaimed suddenly, "In Nice I may disappear for a day or two. I may b But if I am, please don't missing raise a fuss about it. I'm incognito and nobody will know. I may be ab sent for seven days. If I am not back by that-time-then-you-may-make-in

quiry." But the Commissary of Police Eckardt! He will surely know?" I re-

"No. He won't know. I shall evade him as I've often done before," re-blied his impedial highness, "I tell milesty. Von Bernstorff look his place you of my latentions so that you may ble friend. Tell him not to worry, and he will be paid a thousand marks on the day Count von Grunnu reappears.

I smiled, for I saw the influence of the eternal feminine.

"No, Heltzendorff. You are quite

mistaken, There is no hady in this no account of where she lived. thoughts. I am out here for sec poses of my own. For that reason I because I cannot approach the crown take you into my confidence rather prince," she said presently. "You probthan that unnecessary inquiry should be made and some of those infernal journalists get hold of the fact that the Count von Grunau and the crown prince are one and the same person. I was a fool to take this salon. I ought to have traveled as an ordinary passenger, I know, but," he laughed, "this is really comfortable and, after all, what do we care what the world thinks Surely we can afford to laugh nt it when all the honors of the game

are, already in our hands." His words mystified me, but I became even more mystified by his actions a few days later.

I was in ignorance that a fortnight before Hermann Hardt, one of his highness' couriers, had left Potsdam and on arrival at Nice had rented for three months the fine Villa Lilas,

We soon settled there and on evening of our arrival I accomp the crown prince down into the tow

to the Jetes promenade. We smoked together and chatted, as we often did when his imperial high ness became bored. I was still mystifled why we had come to the Riviera so early in the season.

Yet our coming had, no doubt, been an hour of our arrival at the Villa Lilas a short, stout old Frenchman, with white, bristly hair-who I afterward found out was Monsieur Paul

Count von Grunau. The imperial incognite only means that the public are to be deluded. Offcialdom never is. They know the ruse and support it all the world over. His highness the crown prince was paying his annual visit to Nice, and the presiA LETTER FROM THE CROWN PRINCE'S PERSONAL ADJUTANT TO WILLIAM LEQUEUX, POSSESSOR OF THE SECRETS OF EUROPE.

Veneux Nados, par Moret-sur-Loing, Scine-et-Marne, February 10th, 1917.

My dear Lecturents in the describing the proofs of your articles describing in the last finished reading the proofs of your articles describing my life as an official at the imperial court at Potsdam, and the two or three small errors you made I have duly corrected.

The gross scandals and wily intrigues which I have reinted to you were many of them known to yourself, for, as the intimate friend of Luisa, the ex-crown princess of Saxony, you were, before the war, closely associated with many of those at court whose names appear in these articles.

these articles.

The revelations which I have made, and which you have recorded here, are but a tithe of the disclosures which I could make, and If the world desires more, I shall be pleased to fursish you with other and even more starting details, which you may also put into print.

My service an personal adjutant to the German crown prince is, happily, at an end, and now, with the treachery of Germany against civilisation glaringly revealed, I feet in my retirement, no compuscion linexposing all I know concerning the secrets of the katser and his adu. With most cordial greetings from Your sincere friend,

(Signed) BRAST VON HELTZENDORFF,

his representative, the bristly haired little prefect.

As I departed from the crown prince who yawned and declared that he was tired, he said:
"Ah! Heltzendorff, How good it is

to get a breath of soft air from the Mediterranean! We shall have a port on this pleasant sen one day—if we live as long—th?"

That remark showed the trend of events. It showed how, hand in hand with the emperor, he was urging preparations for war-a war that had for its primary object the destruction of the powers which, when the volcano erupted, united as allies.

The Mysterious Lady.

After we had been at the Villa Lilus mut ten days, I was one afternoon sented-outside the popular Cafe de Cipera, in the Place Massena, when a passed along the pavement, glanced at where he had been engaged by in Unter den Linden. See! Here is the table in the corner whereat I was sitting.

May I be permitted to have a wor with you, monsteur?" she asked in French, in a low, refined voice, Certainty, was my reply, and

rose and drew a chair for her. She glanced round quickly, a though to satisfy herself that she would not be overheard. I saw that she was about twenty-four, handsome,

"I know, monsieur, that I am a complete stranger to you," she exclaimed with a smile, but to me you are quite familiar by sight. I have passed you torrent of tears; yet when I returned many times in Berlin and in Potsdam, and I know that you are Count you Heltzendarff, personal adjutant to his

"You know that!" I exclaimed. She smiled mysteriously, replying: "Yes, 1-well, I happen to be a

I held my breath. So this pretty oung Frenchwoman was one of my immerial master's friends! --

"The fact is," she went on, "I have traveled a considerable distance to see you. I said that I was one of the changed. frown-prince's friends. Please do not examined the photograph beneath the disputerstand me. I know that he light has a good many friends, but I have Next second, however, he had recov-

derstand," I said. \_\_\_\_\_ "Of course not," she answered, and then, glaucing round, she added: "This place is a little too public. Cannot

we go across the garden vender?' I rose and walked with her to t quiet spot in the garderis. She told me that her name was Julie de Ronville, but she would give

ably do not know the true reason of

his visit here to Nice?" "No," I said. "I\_ndmit\_that\_I do not, "Why is he here?"

"It is a secret of his own. But. I am aware of the reason, and that is why I have sought you. Would it surprise you if I told you that in a certain quarter in France it will, in a few days, he known that the German emperor is establishing a movement an entente between Germany and Britain, and that the whole affair is based upon a fraud? The emperor wants no entente, but only war with France and with Britain. The whole plot will be exposed in a few days!"

"From what source have you de-elved this knowledge?" I asked, looking at her in amazement. But she again smiled mysteriously,

ind said: I merely tell you this in order to prove to you that I am in po of certain facts known to but few peo-

"You evidently are," I said. "But who intends to betray the truth to France?". "I regret, count, that I cannot an-

wer your question." "If you are, as you say, the crown prince's friend, it would surely be a friendly act to let us know the truth, steps may be taken, perhaps to avoid the secret of Germany's diplomacy from leaking out to her ene-

"All I can tell you, count, is that the matter is one of the gravest impor-

tance."
"But will you not speak openly, and rive us the actual facts?" "I will-but to his imperial highness alone," was her answer

dent had sent his compliments through | an interview, then I will reveal all I know, and, further, will suggest neans of preventing the truth from "But you are French," I said.

"I have told you so," she laughed.
"But probably his highness will refuse to see Julie de Rouville, therefore, 1 think it best if you show him this," From her little gold chain-purse she produced a small, unmounted photo-

graph of herself, and handed it to me When he recognizes who wishes to see him he will understand," she said, in a quiet, refined voice. "A letter addressed to Julie de Rouville at the Post Restante at Marseilles will quickly find me. I do not wish the letter to be sent to me here. From Marsellles I shall duly receive it."

I was silent for a few moments. "I confess," I exclaimed at last, "I confess I do not exactly see the necessity for an interview with his highness, when whatever you tell me ashis personal adjutant—will be regarded as strictly in confidence."

"I have already said, Count von Heltzendorff, that I am his highness friend, and wish to approach him with <del>dives of friendship.</del>

"You wish for no payment for this information, eh?" I insked suspiciously, half believing that she might be a secret agent of France. "Payment-of course not?" she an-

swered, buff indignantly, "Show that photograph to the crown prince; and tell him that I apply for an interview," Then, rather abruptly, she rose and walked away, leaving me with her pho

tograph in my hand.

The crown prince was out motoring. and did not get back to the villa funtil after seven o'clock.

As soon as I heard of his roturn I Heltzenderff, personal adjutant to his went to his room and recounted my I saw the woman and gave her the bighness the crown prince—or Count strange adventure with the dark, present in the hope of closing her and indignation as a huge loke, and it was Grunnu, as he is known here in haired young woman in black. He because then that his imperial highness France."

| Come keenly interested, and the more | 1.50 | so when I told him of her secret knowledge of the kaiser's intended establishment of a bogus entente -with

"She wishes to see you." I said. "And she told me to give you her pho-

tograph." I handed it to him. At sight of it his face instantly hanged. He held his breath and then

has a good many friends, but 1 mays have been introduced to him, and he cred his self-possession and said:

"Yes, of course, I know her. She hecture of a certain friendliness to wants me to write to Julie de Ronville Heltzendorff! Have not overlooked the matter, for it is one that closely concerns both the emperor and myself.

Late in the afternoon, two days la ter, his highness, who had been walking alone, returned to the villa with stranger, a tall, rather thin, fair haired man, undoubtedly, a German and the pair were closeted together. holding counsel evidently for a consid erable\_time\_\_Where\_his\_highness-met him I knew not, but when later on ! entered the room I saw that the pair were on quite friendly terms:

His highness addressed him as Herr Schafer, and when he had left he told me that he was from the Wilhelmstrasse and had been attached to the embassy at Washington, and afterwards in London, "for affairs of the

Whatever was in progress was strict secret between the pair. The more I saw of Hans Schafer the more I disliked him. He had cruel eyes and I could see that he was a very clever and cunning person.

For a full fortnight the crown prince and the man Schafer were almost inseparable. Was it for the purpose of meeting Schafer that he had gone to Nice? The man had been back from London about two months and had, I learnt, been lately living in Paris.

One evening while strolling along the tree-lined Promenade des Anglate I suddenly encountered Julie de Rouville, dressed in mourning, a quiet, pa thetic figure, just as we had last met. I instantly recollected that since the evening when I had given her photograph to the crown prince he had never mentioned her.

"Ah, count!" she cried, "This is indeed, a welcome meeting! I have Remo, the body of a woman, fully been looking out for you for the past "I've been staying over at Cannes."

was my reply. "Well?"
"I have to thank you for giving my photograph and message to his highness," she said. "I trust that the crown prince has

written you—eh?" "Well, no-" was her rather vague reply. Then how are you aware that I

gave your message?

She shook her head and smiled. "I had my own means of discovery, By certain signs I knew you had carone. Tell him I must see him for I satch box and from some secret corredread daily lest the truth of the spondence had learned the real truth kalser's real intentions be known at the Quai d'Orsay."

"Certainly," was my reply. "I will deliver your message this evening." "Tell him that my sole desire is to act in the interests of the emperor and

see why you should interest yourself in the crown prince if he declines to quis, de Vienne by name, who pestered communicate with you."
"I have my reasons, Count von Helt-

zendorff," was her rather haughty re-ply. "Please tell him that the matter will not brook further delay."

I had seen in the London newspupers during the past week how engerly the English Journalists, with the dust cast into their eyes, were blindly advoating that the British public should welcome the great German national movement, headed by Baron von Gessler, supported by Ballin, Delbruck and Von Wedel, with the hearty co-opcration of the emperor and the imperial chancellor-the movement to estab lish better relations with Great Bri-

I knew that the secret should at all hazards be kept, and that night I told the crown prince of my second-meeting with the pretty woman in black and her argent request.

He laughed, but made no remark, Yet I knew by his tone that he was not so easy in his mind as he desired me to believe.

It also seemed strange why, if the young Frenchwoman was so desirous of meeting him, she did not call at the villa.

About a week later it suddenly occurred to me to endeavor to discover the real identity of the lady in black, but as I was not certain whether she nctually lived in Nice it was rather Nevertheless the aid of my friend Belabre, inspector hours. Before he returned the man died from exhaustion and colding a few days I made an instrumeding. Amazed at this result the ignorant billing a few days I made an instrumeding. myoking called herself De Ronville was an Italian cafe concert singer named frene Speronl-the woman who had aroused the lealousy of the crown prin And she knew that important state secret of Germany!

The situation was a most serious one. I felt it my duly to mention my discovery to his highness, when, to my surprise; he was not in the least angry. He merely said;

"It is true, Helizendorff-true what crown princess declared-that I went to Wiesbaden and that I gave woman a pair of emerald carrings, which I ordered from old Vollgold, But there was no reason for Jealousy.

prefty variety artiste was endeavoring to levy blackmill. But how could she, on the ruin he has made. Damages,

of the emperor's intentions? She was, I found, living as Signorina Speroni, with ber maid, at the Hotel Bristolover at Beaulien, just across the blue bay of Villefranche, and as the days went on I realized the imminent

the kniser-knew of it. I made a remark to that effect to his

The woman obtained the secret by opening the disputch box of one who believed her to be his friend, and then she attempted to use her knowledge in order to drug me into her net. But I worth?" do not think I am very likely to be

caught—eh?" At\_that\_moment\_Herr Schafer\_en cussion was out of the question.

From inquiries I made later on 1 found that the concert singer had suddealy left the hotel, therefore I went over to Beaulieu and had an instructive chat with the hall porter, a German, of course. From him I learned that the signorina had been staying there ever since the date when we had arrived at Nice and, further, that two gentlemen had been frequently in the habit of calling upon her. One was a smart young Frenchman who came in a motor car and the other was a German. From the description of the latter 1 at once came to the conclusion that it was none other than Herr Scha-

"The one gentleman did not know o the other's visits," said the bearded norter, with a laugh. "The signorina always impressed silence upon me, hecause she thought one would be lealous of the other. The German gentleman seemed very deeply in love with companied her when she left here for San Remo."

I reported this to his highness, but he made no remark. A week later some fishermen found upon the brown rocks near Capo Verde, beyond San dressed, afterwards identified as that of Irene Speroni, the singer so popular in Rome.

It was proved that on the previous night she had been seen by two peas-ants walking along the sea road near San Lorenzo, accompanied by a tall, thin man, who seemed greatly excited, and was talking in German. It was believed by the Italian police that the unknown German, in a fit of jealousy, threw her into the sea.

From facts I gathered some months later I realized that the whole plot had been most cumulagly conceived. Schafer, after his return from Ameri-"If his highness will honor me with ried out your promise," she said. "But ca, had met the woman Speroni, who and defend it.—Daniel Webster.

as I have heard nothing, I wish you to was performing in London, and she deliver another message—a very urgent had, unknown to him, opened his disregarding the proposed entente which

the emperor contemplated.

Schafer, alarmed at the woman's knowledge, and yet fascinated by her charms, had gone to the crown prince and he, in turn, had seen the woman himself," she urged. in Wiesbaden. Finding her so danger-"But, forgive me," I said, "I cannot ous to the emperor's plans he first inquis, de Vienne by name, who pestered her with his attentions, and followed her to Benulieu. Having so for suc-ceeded, the crown prince went to Nice and played upon Schafer's love for the woman, pointing out that she was playing a double game and urging him to watch.

He did so and discovered the truth.

Then there occurred the tragedy of jeniousy, exactly as the police he-

lieved. Herr Schafer had, however, escaped to Germany, and the police of San Re-mo are still in ignorance of his identity.

(Copyright, 1917, William LeQueux.) Death From Superstition

A superstitious Huddhist caused a man's death in Mura, Japan. A déaler in clogs went mad, owing to money troubles. His wife and his sister consulted a Buddhist. The ignorant devotee, believing that the man was possessed by a fox, advised them to take him to Nose temple. In accordance with the request of the man's relatives devotee took the lunatie to Nose temple, where he threw him in a poo ereath a waterfall known as Shintaki, holding him fast there with rones. He repeated the process for a few days. Needless to say the lunatic's health suffered considerably by this extraordimary treatment. A few days later, at bunnie in the bash of the waterfall got buried the body in a temple known as Takusonji in the same village, and made out that the lunatic had died from a sudden filness, e however, heard of the affair and ar rested the man.

Dickens' Forensic Masterpiece. Dickens' lawyers are legion, but none of them has a stronger hold on the memory of his readers than Ser-Bardell vs. Pickwick ranks as a forensie masterpiece: "But Pickwick, gen tlemen, Pickwick, the ruthless destroyer of this domestic oasis in the desert of Goswell street-Pickwick, who has choked up the well and thrown ashes on the sward-Pickwick who comes before you today with his heartless tomate sauce and warming pans-Pickwick still rears his head with unblush ing effrontery and gazes without a sigh gentlemen, heavy damages, is the only punishment with which you can visit him—the only recompense you can award to my client. And for those damages she now appeals to an en lightened, a high-minded, a right-feeldanger of exposure, and wondered if sympathizing, a contemplative jury of ing, a conscientious, a dispussionate, a her civilized-countrymen."

# SHE HAD SPENT A SMALL FORTUNE

Says That No Medicine Ever Gave Her Relief Until She Took Tanlac.

## SUFFERED SIX YEARS

"Taniac Certainly Has Been a Wonderful Thing for Me," Says Mrs. E. M. Moodie of Detroit

"I spent a small fortune trying to get relief but nothing did me any good except just for the time being until I started taking Tanlac," is the statement of Mrs. E. M. Moodle, who resides at 481 Kercheval street, Detroit.

Mich., a few days ago.
"I suffered with nervous stomack trouble and indigestion for six years." she continued. "My food would not digest but would just lay in my stomack and sour and the gas, formed by it would crowd around my heart so at times that I could hardly breathe. I had intense burning pains in my stomach and was very nervous and weak and worn-out and couldn't do any llousework, 1 dured not touch ments or vegetables and couldn't even ent-eggs without suffering torture. I was in an awful condition and only those suffering from the same trouble can

realize what I went through. "I am just now half through with my third bottle of Tanlac and honestly it has done me more good than as the other medicines I ever took combined. I don't have to live on milk and stale brend any more. The fact is I can-eat meats, fruits, vegetables and anything I want and it all agrees with me. I am simply feeling like a new woman and my work is now a pleasure instead of a burden as it was before. Tanlac certainly has been a wonder

ful thing for me. There is a Tanlac dealer in your town.-Adv.

USES TURF INSTEAD OF COAL

Switzerland, on Account of the Wa-Peat as Fuel. According to a report to the department of commerce from William I'. # Women.

porting women of modern life.—Ex-

to the wheat crop at the right time, in right amounts. Phosphafes should return to the farmer several times over what he spends for them, and this season their use is to be particularly recommended.

The beneficial element in phosphate fertilizers, of course, is phosphorous, and it is without doubt the most help-ful substance that can be applied to the wheat crop. Wheat requires a large amount of phosphorous in order to fill out plump grains and to yield heavily, but Michigan soils as a rule are deficient in this mineral. The ap plication of acid phosphate hastens maturity and increases the yield.

At the Michigan experiment station 200 pounds per acre on wheat gives a return of six bushels or over 600 per cent on money invested in fertilizer. Under average conditions about 250 to 800 pounds of acid phosphate should. be applied at time of seeding, either broadcast or through a fertilizer atachment.

Acid phosphate is particularly effective when used to re-enforce manure. Twenty-five pounds of acid phosphate with each ton of manure will more than double its value and pay for the phosphate as well.

Rock phosphate is also valuable ton of mannire, either mixed with it horror on the steel rou, these spine save to the machine of application, or used as bamboo purists are considerably in \$2,000,000,000 a year. Every Scout a stable absorbent scattered in the the minority, however, as can be ease will be glad to help his mother and the minority in the feeding fly proved by a straw vote of the rods other women who are bearing their a stable absorbent scattered in the the minority have a straw vote of the rods other women who are bearing their varil, will render the manure much in use at any camp or resort in the share of the burden of war. Even more effective. When nitrogen and same-fishing country. Personally, old though he profess toasted whent brend, potash are used in connection with man, when it comes to downright class he will cut his corn gladly and have phosphorous, a further lucrease is to a rod, you certainly must place est not, profit will come from the use is first choice of materials, being light, of acid phosphate. Ammonjated phosphates likewise return a good profit, in the hands of a beginner it sure and where complete fertilizers cannot be bought at a reasonable price their ing if he hooks onto a real live wire use is strongly advised.

bulb, and a yellow color of the tops. makes as fine a fishing tool as may rod. It may not be as speedy in action as ly ripe before pulling. The tops should the split-bamboo but as a buying be dead and the outer skin of the builds proposition for the beginner, dollarfor dollar, you will get a better rod the lower-priced rods than

The steel rod does not require much care, being a husky tool, about all that is necessary to keep it in first-class shape is to wipe it dry after using, and oil occasionally in order to avoid rust. It is always ready for use and you never have to bother with frayed windings, cracked varnish or warped joints, You will never make a mistake if you include a steel rod in your kit, in fact if you are going into the woods far from your tackle supply as a "safety first" tote a steel bait-caster. The gen three-piece with short handle, and the fact that the ferrules, which are mere ly a band of bronze, are built right into the rod, overcomes the weakness of the three-piece split-bamboo. It is the most satisfactory rod of the three-piece construction. There is one little old veteran steel rod up in the North woods which started its balt-casting cause they do not keep well. Before life as a five-footer some six years storing, it is eustomary to remove a ago: 'A number of breaks and accipart of the top. When topping, leave dents have reduced it to a trifle below at least an inch of the stem above the four feet. The guides have been resoldered a number of times, the enamel has passed away, yet this old pal of a rod made a 31½-pound musky come up to the gaff, without a quiver in its short the food administration. Our plan is length, and at that it's still good for to ask that a pledge be signed and many a cast. Wonderful strides have—that a housecard, designed as a United FERTILIZERS NOT STANDARD been made in the steel-rod end of the States shield with a few heads of game, and it's here to stay, as shown by its popularity on the fishing waters anywhere, and if you get a good one you can feel sure that it will be there with the goods when you hook your

cine, Architecture, Commerce and Law.

Anybody, everybody, especially strangers, don't miss the Lemon Colored Store on the hill. Live wire 1043. A little out of the way, but have been getting there and is busy at the present writing.

Farmers, laborers, soldiers and professional men, what is it that amounts to so much and needed most and so little that of? Why, it's 30c for 6 Boxes the match of course, 8c per box, mind you, at most places. Now Large size—the Ohio Blue Tip. Can you beat it?

of Matches

Soldiers, don't miss the Lemon Colored Store on the hill, and mind you not a lemon when it comes to handing you high grade goods at low prices. Men's sox 15c, 2 pair 25c for

To every workingman, soldier, farmer and railroad man: I have three essential things you must bear in mind: The Blue Tip Matches 5c per box, Porcelain ware, good sized kettles 15c, two for 25c; men's underwear. Gostraight to the

lemon colored store on the hill. You will be hitting the nail right on the head for low prices. No large store can outsell this little store. That's what they all say. Get the habit, Go to Frank's.

To the laboring men: When it comes to that line overalls, so much needed, I have the striped and plain with \$1.25

They cannot be surpassed for fit and wear.

My coats have been reduced to but a few in number and in order that I may close them out before Sept. 1st, this is what I am going to do:
A \$10.00 coat for \$5.85. Sev-

eral good patterns and sizes in

A few \$15.00 coats for \$9.85.

Two velour wool Jerseys worth \$18.00 for \$9.85, very near the half mark. Good colors. We'll lay them away for you by making a payment on them. Remember, come early as it is nearly Sept. 1st.

Bear in mind I have at least 75 pairs of Florsheim's \$6,00 shoes, sensible toes, at You know the prevailing prices—they are asking \$8.00 and \$9.00 elsewhere and the quality cannot be beaten at this present writing.

Remember I handle the Endicott Johnson army \$5.50 While they last. You all know

what this brand is.

Headquarters for tennis goods.

To the strangers entering our city of Grayling: Don't fail to visit the Lemon colored store on the hill for suit cases at 59c, \$1.35, \$1.48 and upwards as high as \$9.85. A few trunks at prices that can't be duplicated.

Ladies, have you noticed those corsets in the win-

Outing hats, plain white and stripes, one-half off while they last. Get busy.

Union suits in all lengthsshort and long.

Men's up to the \$3.50 minute Panama Hats How does that strike you? Buy it and lay it away. . .

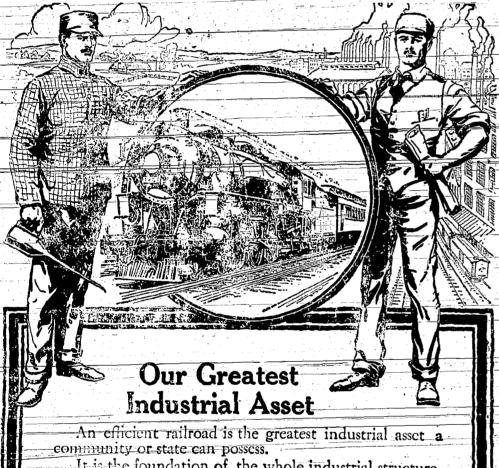

Watch for the Match Trim Saturday

Oh, I nearly forgot you. Do you want a bathing suit in blue and black and gray at 69c and 87c? You had better look up Frank's place on the hill.

Watch for Frank's Circular announceing future tall prices. It will do you good. Goods will be arriving daily.

# FRANK DREESE

The Lemon Colored Store on the Hill, opp. the Jail

It is the foundation of the whole industrial structure. The far-reaching fingers of transportation touch field, mine and factory and galvanize them with life.

Business would become one gigantic paralytic but for the life-giving throb of the locomotive.

# The New York Central Lines

"America's Greatest Railway System"

operating over 12,000 miles of railway in the most populous section of the United States, employing nearly 200,000 men and equipped with every device and facility for the safe and edicient handling of passengers and freight, are essential to the prosperity of the territory they serve.

To continue to render the public and the government efficient service demands constant expenditures of millions of new capital, for a railroad is never finished except in a community that is dead.

The necessary funds must be secured in competition with world-wide borrowing and only as the public and the government see to it that the railroads are granted rates that will provide a fair return and that regulation is constructive, will railroad securities attract new capital.

This is to notify the public that our Blacksmith shop will be open for business between the hours of 6:00 to 11:00 a. m., and from 12:00 noon to 5:00 p. m. EVERY DAY except Sunday. Those coming from out of the city may feel positive of getting service when they come, and no disappointments. We are going to give service, as well as first class workmanship.

#### WILL HAVE TEST WELL ON SOUTH SIDE.

	î
(Continued from first page.)	
prove that good water can be obtained	
in this section, if a proper depth is	
reached and you have the protection	
of impervious strata against surface	í
drainage and leachings. Mr. Hanson	
said that they would take up the mat-	
ter of putting down a well of this kind	•
and if good water is obtained (and we	
have every reason to believe that it	
will) the well will be left there for pub-	•
lic-use. The citizens of Grayling, in	
this section of the town, can then put	
down private wells, if they so desire,	۰
or use the water from this public well,	
If the proposed city well does not	
demonstrate the fact that good water	
can be obtained in this section, it is	
then up to the Dupont Powder Co. to	
go over their sewer carefully and look	
for leaks. If this is done, a represen-	
tative from this department should be	
on the ground at the time together	
with representatives of the village and	
a thorough investigation carried on to	
ascertain whether or not this sewer	
uspection has been properly carried	

The present public water supply of the village-of-Grayling is owned by Order for Publication the Salling Hanson Co., and is pumped Determination of Heirs from the Au Sable river above the dam at their lumber mill. This water The Probate Court for the sunfit for domestic use and is used County of Crawford. only-for sprinkling, tollet flushing and a number of men are working continually on the nond. There a number of men are working continually on the pond. There are also open vault closets on the bank of this pond, used by the men. This water is not fit for domestic use and having the same under pressure in the homes and business districts is a constant source of danger, not only to the citizens of Grayling but to the strangers and transients. The village of Grayling should have a public water supply of proper quality. Ground water is available at comparatively shallow depths, protected by hardpan strata. The village should enter into negotiations with the Salling Hanson Co. to buy the present plant and put down their own ground water supply.

The village of Grayling is in good

order; and that in case of her appear ance that she cause of her appear ance that she cause her answer to the plant it of the water of the plant it is deceased. Some of which was intended to inherit the real estate of Donald determine who court a petition praying that said bill of complaint to be filted and a copy. Court a petition praying that said bill of complaint to be filted and a copy. The wild in the matter of the estate of Donald Accessed.

In the matter of the estate of Donald Accessed.
